

PUT A “LID” ON IT!

Low Impact Development Workshop March 13, 2008, 8 am to 4 pm Grand River Center • Dubuque, Iowa

Sponsored by Dubuque Soil & Water Conservation District, the City of Dubuque, and Durrant.
Featuring Jim Patchett, RLA, ASLA, LEED®-AP of Conservation Design Forum, Inc.

Conservation Design Forum (CDF) is a nationally recognized design firm that explores and creates integrated, water-based design strategies that promote economic, social, and ecological sustainability. James Patchett, RLA, ASLA, LEED®-AP, CDF Founder and President, is the Keynote Speaker at this workshop.

Low Impact Development (LID) is an innovative stormwater management approach with a basic principle that is modeled after nature. LID's goal is to mimic a site's predevelopment hydrology by using design techniques that infiltrate, filter, store, evaporate, and detain runoff close to its source.

Come to this workshop and earn six Professional Development Hours! For more information, contact Dubuque Soil & Water Conservation District (SWCD) at 563.876.3418 ext. 3, or go to www.dubuqueswcd.org.
